

RSM Farrell Grant Sparks providing trusted advice to the not for profit sector

At RSM Farrell Grant Sparks, we have become known for our extensive experience in advising the charity and not for profit sector in Ireland. In today's increasingly regulated environment, directors and other people responsible for corporate governance have significant legal responsibilities. As a result, they often choose to seek professional help from outside experts to ensure that their organisation has sound corporate governance procedures and risk management policies.

Governance issues may include some of the following; board structure, composition, internal control procedures, strategic planning, interaction between Board and senior management team, Revenue audit matters, safeguarding of assets, risk management, composition of audit committees, and the implications of "shadow" directors.

Our corporate governance team at RSM Farrell Grant Sparks can review the adequacy of structures, controls and systems in your organisation and the team will assist in making recommendations in respect of any weaknesses and failures which they have identified. In particular, we assist directors and others responsible for corporate governance to ensure compliance with:

- Directors' Compliance Statement (required by public limited companies and some larger private limited companies)
- International Financial Reporting Standards (IFRS)
- Director's statement on internal controls
- Mullarkey Report (Republic of Ireland), Cadbury Report (UK) and Treadway Commission (USA)
- Any public sector or other requirements
- Fiscal legislation
- Corporate law matters

Other accountancy services that we provide to the not for profit, charity and voluntary sector include:

- **Audit & Assurance**, [RSM Farrell Grant Sparks](http://www.rsmfarrellgrantsparks.ie) is one of the leading audit and accounting firms in Ireland. We provide audit, assurance and advisory services for a wide range of businesses and a number of charities and not for profit organisations.
