Transformative Leadership Programme Selection Process

September 2022

The selection committee for the Transformative Leadership programme includes representatives from Community Action Network [the Programme Directors] and representatives from The Wheel [the Programme co-ordinators].

Following the closing date of the programme, the selection committee review all applications individually and then meet to make the final decisions.

These decisions are guided by:

- The experience of the individual and their role & responsibility in their organisation and in previous roles to lead and manage change
- The role of the organisation in creating/ working for social change
- The quality and detail in the application form
- The commitment of the individual's organisation to the programme
- The commitment of organisations since the programme began [i.e. organisations that have seen the value of the programme and have identified a number of individuals from their organisation to attend over the years]
- Applications that are focused on a particular strategic direction of their organisation that requires more than one individual to participate on the same programme
- Other areas that deemed relevant, which will be specific to individual applications.

All applicants will be informed of the decisions from the selection committee, within 7 days of the closing date.
