The Arts Council - Creative Places Award

The Arts Council's objective for its Creative Places programme is to invest in places (e.g. towns, villages, suburbs, rural places) that have had fewer opportunities to take part in the arts.

Creative Places should be inclusive and diverse, and their programmes rooted in socially engaged arts practice and community-development principles. Successful applicants will build on existing cultural strengths and be led by community participation and ideas.

In particular, they will look to involve people who are often excluded.

The award has three strands:

1. Strand 1: Creative Places Seed Award
2. Strand 2: Creative Places Roots Award Phase 2
3. Strand 3: Creative Places Growth Award Phase 2

Strand 1: Creative Places Seed Award

This award will be multi-annual and awarded over three years (2026, 2027 and 2028).

Strand 1 is open to Creative Places who have completed their research-and-development phase.

The award covers the appointment of a Creative Places coordinator and a programme budget. The maximum you can apply for is €335,000 over three years (€85,000, €125,000, €125,000). In 2026 it is anticipated that up to two awards will be made.

Strand 2: Creative Places Roots Award Phase 2

This strand is only open to applicants who have completed their Creative Places three-year award and are now entering into the next phase of their development.

This award will be for up to two years, and applicants need to demonstrate their stakeholder engagement and programming plans for 2026 and 2027.

The maximum you can apply for is between €70,000 and €90,000 per year (i.e. a total of €140,000–€180,000).

Strand 3: Creative Places Growth Award Phase 2

This strand is only open to applicants who have completed year 1 of their Phase 2 programme.

This award will be for up to two years, and applicants need to demonstrate their stakeholder engagement and programming plans for 2026 and 2027.

The priorities of this award align with the priorities of the Arts Council's ten-year strategy (2016–2025). This strategy will continue in operation in 2026 during the development of a new strategy by the Arts Council.

The Arts Council has identified the following as strategic priorities for support through this award:

- Public engagement: e.g. the applicant can demonstrate that the proposed place includes a higher-than-average number of people often experiencing barriers to the arts: lack of cultural infrastructure, demographic profile with high numbers of older people, youth population and cultural diversity, etc.
- Socially engaged or collaborative arts practice: e.g. the principles of socially engaged or collaborative arts practice coupled with community-development principles are clearly understood and articulated and the application is informed by this expertise.
- Research, policy and sustainability: e.g. can demonstrate public consultation and engagement, align with local regeneration policies and plans, has clear research questions (if applicable), social-impact evaluation and measurement methods, models of local approaches to collaboration, new investment models for supporting the arts, and can create a sustainable future.
- Partnership: e.g. a consortium that can demonstrate a meaningful and long-term commitment by a local-authority arts office, community-development partners, local arts organisations already working in or near the place, and socially engaged arts expertise. At least five partners are recommended.
- The level of cash and in-kind investment by the supporting partner(s). This must be a minimum of 30% of the overall costs for Strand 1, Strand 2 and Strand 3.

The Arts Council - Opera Projects and Production Award

The objective of the Opera Projects and Production Award is to support initiatives by professional practitioners in the development and presentation of opera at three distinct stages, encouraging the development of work of high artistic quality, and supporting developmental presentations and fully staged professional presentations of opera that engage with the public.

The award is intended to support the making and presentation of opera and to provide opportunities for artists in line with the Arts Council's published policy and strategy for opera (available to download from the publications section of the Arts Council website: <http://www.artscouncil.ie>).

In each of the three strands of the award, priority will be given to applications that demonstrate:

- A clear artistic vision and evidence that the proposed project is or is likely to be of high artistic quality
- Significant development opportunities for professional opera practitioners
- A clear alignment with the Council's policy and strategy priorities for opera.

Note: applications for touring of a previously fully produced production should be directed to the Arts Council's Touring Scheme.

Additional priorities for each of the three strands are also set out below.

Strand 1: Opera Projects: Project Development

The purpose of the Project Development strand is to support artists and creative teams to develop new work (or, on occasion, to develop significant new presentation approaches to existing work). In this strand, while the work should ultimately be intended for public presentation, there is not a requirement to present the work to an audience.

Priority in this strand will also be given to proposals that:

- Focus on collaboratively developing new ideas through innovation and experimentation
- Deliver significant development opportunities to practitioners
- Provide evidence of a high quality artistic focus. The track record of the key artists will be taken into account.

Strand 2: Opera Projects: developmental presentation & smaller-scale full production

The primary purposes of this strand are to:

- Facilitate the public presentation of professional work as part of a developmental creative process
- To provide evidence and impetus to support later opportunities for full production
- To support full production and presentation of small-scale work.

Projects in this strand must engage an audience appropriate for the nature of the work. Proposals may be for a full production, workshop performance or a concert performance of all or part of a work. Proposals can include, as appropriate, an audio or video recording as part of the project. Applicants are encouraged to consider reaching audiences by a variety of means.

Individual applicants to this strand must be able to clearly demonstrate that the project (including its public-presentation aspect) is feasible, ideally on the basis of a partnership commitment from an experienced producer such as a producing company, a theatre/venue, an established festival and/or another arts organisation.

Priority in this strand will be given to proposals that:

- Are high-quality artistic projects that demonstrate a strong and imaginative approach; relevant samples of work and the track record of the key artists involved will be taken into account
- Are presented to an appropriate public, with a clear plan for reaching that public
- Involve the development and presentation of new opera
- Involve the preparation and public presentation of new performing editions of historic Irish opera
- Demonstrate evidence of a capacity to realise the project successfully – e.g. by the contribution of value-adding partnerships and evidence of sound production planning and budgeting

Strand 3: Opera Production

The purpose of the Opera Production strand is to support full professional productions of complete operas of either new or existing work of medium or larger scale of any genre, reaching and engaging with substantial live and other audiences, and providing

opportunities for professional operatic artists in the process. Applications that include well-designed elements to reach and develop new audiences for opera are encouraged.

In reaching audiences, the emphasis of the award is on encouraging a collaborative approach to high quality opera production based on value-adding partnerships between artists, producers and presenters.

Applicants must be able to demonstrate the potential quality of the production and demonstrate concrete, credible strategies and plans to maximise public reach and engagement through live performance and other audience channels.

In considering proposals, the Arts Council will take into account a balance in the range and type of opera to be funded, and the extent to which proposals address areas of repertoire and public engagement of importance to the Arts Council as expressed in the Council's opera policy and strategy.

Priority in this strand will be given to proposals that:

- Are high-quality production proposals that demonstrate a strong and imaginative approach (relevant samples of work and the track record of the key artists involved will be taken into account)
 - Evidence a clear commitment and well-grounded, detailed plans to maximise public reach and engagement, both in terms of live audiences and audiences reached through other means
 - Provide opera repertoire that meets particular audience need as part of a balanced national opera provision
 - Proposals that reach particular audiences as part of a balanced national spatial and demographic provision
 - Demonstrate appropriate experience, sound planning and budgeting of opera production
 - Show strong and credible plans for maximising production income from sources other than Council funding
 - Use feasible, efficient models of production with appropriate value-adding partners.
1. Funding requests in Strand 3 that are less than €50,000 should instead apply to Strand 2.

Eligibility

Applicants must be resident in the Republic of Ireland. However, we may accept applications from outside the Republic of Ireland. In this case, you must detail in your application form how your proposal would benefit the arts in the Republic of Ireland. We would need to be satisfied with your explanation.

Organisations (such as producing venues) in receipt of Strategic Funding or Arts Grant Funding may apply, provided that any activity and related funding is demonstrated to be additional to, and separate from, the activities for which that organisation has received Strategic Funding or Arts Grant Funding.

Strategic Funding opera companies may, on occasion, play a positive role in supporting or partnering with OPP applicants. In such instances, the applicant and the supporting company must verify that the support offered and the proposed role of the funded organisation is additional to, and separate from, the activities for which that organisation has received Strategic Funding, and that the supporting opera producer will not publicly or otherwise present the work as its own production or co-production.

- Reduce health inequalities.
- Address the places in which health and wellbeing is impacted.
- Help people and communities to better look after their own health and wellbeing.

Healthy Ireland recognises that health is experienced by people as part of everyday life. It takes a settings approach to health promotion and disease prevention by targeting the places where people live, work, and play. We work in partnership with Healthy Ireland to use creative and cultural activity as a positive health behaviour.

Local Enhancement Programme 2026

A new €7 million Local Enhancement Programme has been launched to support small community groups across Ireland in 2026. The funding will provide capital assistance for local organisations, with a focus on disadvantaged rural and urban areas. Eligible groups will be able to apply for support with facility upgrades, accessibility improvements, energy-efficiency measures and essential equipment.

The programme will be delivered through Local Community Development Committees nationwide. It forms part of the government's broader strategy to strengthen local infrastructure and encourage community participation, particularly among marginalised and under-represented groups.

This funding will provide capital supports that are essential for many small community groups and organisations, particularly those who serve disadvantaged communities in rural and urban areas.

There will be a particular focus on small capital works/improvements, and the purchase of equipment for community use. The funding may be used for, but is not limited to; improving access for persons with a disability; enhancing community participation for disadvantaged and marginalised groups, and improving energy efficiency of community facilities to reduce ongoing costs.

The Arts Council - Young Ensembles Scheme

The Arts Council is the national agency for funding, developing and promoting the arts in Ireland. The Council recognises that the arts have a central and distinctive contribution to make to society.

The primary purpose of the Young Ensembles Scheme is to support groups of young people between the ages of ten and twenty-four to create or actively engage with ambitious and original work in any artform (e.g. circus, street performance, spectacle, dance, digital media, film, music, multidisciplinary arts, theatre, literature, visual arts, architecture or any combination of the above). Groups/ensembles must be made up of three or more members.

The Young Ensembles Scheme has two strands. You should choose the strand that is most suitable for your ensemble and for your proposal. You may only apply to one strand.

Strand 1

This strand is for ensembles that wish to undertake a process or project that will develop the practice and experience of the young people involved. You may apply for up to €10,000. Applicants may be new or established ensembles and must demonstrate their capacity to develop and deliver a high-quality artistic process.

Strand 2

This strand is for ensembles that wish to undertake a larger-scale process or project that develops the work of the ensemble and which will cost more than €10,000 and no more than €25,000. Applicants must be established ensembles with a track record of delivering high-quality artistic processes or projects. Applicants must make clear why a larger budget than is available under Strand 1 is required.

For both strands, priority will be given to applications that demonstrate the following:

- Young people have played a role in developing the proposal, and will play a central role in shaping, delivering, documenting and evaluating the project.
- The proposal will ensure a high-quality artistic process that is ambitious and original, provides a challenging and rewarding experience for the participants, and enables them to develop their artistic skills.
- The proposal will ensure young people have ownership of the work they undertake. This may mean they actively engage in the process of devising, creating, composing or designing an original piece of work or artistic initiative,

or that they engage in a process of exploring, interpreting or reimagining a given script/composition/artistic work or series of works in a way that enables them to make it their own.

- The proposal is youth-led, or will actively support and develop youth leadership in the arts.
- The ensemble will benefit from the expertise, support or mentorship of professional artists or arts organisations.
- The proposal includes a presentation or sharing of work or work in progress. This may be small in scale (e.g. for participants and families) or for a wider audience.
- The proposal includes evidence of the ensemble's artistic activities or work produced to date, and how funding will enable the participants to develop their experience further. (In the case of a new ensemble, evidence of other relevant projects in which the young people or artistic mentors have been involved should be demonstrated.)

The Arts Council welcomes in particular:

- Initiatives that enable young people from diverse backgrounds to collaborate in a high-quality artistic process
- Initiatives that enable young people with disabilities to engage in a high-quality artistic process.

Circle K - Cash for Clubs

As proud title sponsor of the FAI Club Mark programme, we're committed to supporting grassroots football in communities right across Ireland. To date, we've already invested over €130,000 across 20 clubs – and we're just getting started!

Now, we're thrilled to launch our newest Cash for Clubs campaign – we are back for our third year supporting grassroots clubs and we've got more prizes for clubs to win.

This year, over 20 clubs nationwide will win amazing prizes, from brand new kits to €10,000 in cash. Here's how you and your club can get involved:

How It Works

1. [Download the Circle K App](#)

Join as a Circle K Extra member and opt into *Cash for Clubs* directly from the app's homepage.

2. Pick Your Club

Create your username and select the club you want to support. You can change which team you want to support throughout the campaign.

3. Earn Points in Two Ways

- In-Store Scans

Scan your Circle K app every time you shop:

- €0.01 – €29.99 spend = 250 points
- €30 – €49.99 spend = 1,000 points
- €50+ spend = 1,500 points

A maximum of 3 scans per day will be valid.

- Play the Daily Game

Open the Circle K app every day to play and collect extra points for you and your club.

Circle K Training Center

Each day, members can boost their score by playing football-inspired games on the Circle K app. The points you earn go towards your personal total and your club's leaderboard position.

Here's what's waiting for you:

- Skill Shot Circuit – Dribble the ball between cones and take your shot on goal. Avoid the cones and score big.
- Penalty Precision – Test your nerves in a 3-round penalty shootout. Each round gets tougher as you aim for the target.
- Corner Kick Control – Deliver the perfect cross and set up your teammate to score a header. Watch out — the wind could change everything!
- Goalkeeper Reaction – Step into goal and keep the ball out of the net. The shots come faster and faster, so stay sharp to rack up points.

Keep your eyes out for the bonus target that will appear randomly in a game where you can get an extra 500 points to your total score.

The Prizes

- Monthly Wins
At the end of each month, the top 3 clubs will win full sets of kits.
- Weekly Wins

Mohamed bin Zayed - Species Conservation Fund

The Fund intends to be as flexible and accommodating as possible when reviewing applications, and to take into account as many different factors as is reasonable when assessing the merit of a suggested project. To support this and to try to streamline the application process, the review process is kept comparatively simple.

However, the Fund does receive many more applications for support than grants could possibly be provided, so please find below some criteria and guidelines which would be useful to bear in mind when submitting an application.

Language: Applications must be submitted in English.

Currency: Budgets must be submitted in US Dollars.

Maximum Grant: The Fund maximum grant size is \$25,000, and any application asking for more than this from the Fund will be rejected. The total budget of a project can be higher if there are other sources of funding, but the Fund will not award more than \$25,000.

Conservation status: The Fund was established to support species conservation work, and so if your project is not about an endangered species it is probably not worth your while submitting an application.

The Fund will use the IUCN Redlist (www.iucnredlist.org) as the primary guide to the conservation status of a given species, although documented variations for sub-species, distinct populations and sub-populations will be taken into account. For those species not assessed through the IUCN Redlist we welcome other methods of assessment and the submission of quantitative data to confirm a species status. Generally the Fund gives priority to those species facing a high threat of extinction (with an emphasis on Endangered and Critically Endangered species), as well as those which are listed as Data Deficient or unlisted but are suspected as highly threatened. Please ensure that the conservation status mentioned in the application is correct and cross-referenced to a website or publication. It might be of use to consult with the relevant IUCN/SSC Specialist Group if you are in doubt or would like some guidance.

Please note that applications with clearly incorrect conservation status and no justification will **NOT** be considered for funding.

Content: Text provided in an application should be kept concise and clear, with clearly stated quantitative goals, aims and methods. When writing an application, please bear in mind that there is only so much text which the Advisory Board and the Fund's board of directors are capable of reading. Priority will be given to those projects that support the professional development of young conservationists.

In situ conservation: Generally, the Fund is primarily interested in providing support to *in situ* conservation work in the field (such as survey work and data gathering, direct action, recovery management, training and the like), focusing on the species in its natural habitat. However, the importance of *ex situ* work (genetic analysis, workshops, *ex situ* populations etc) is also recognised, and so a few grants may be given to projects which focus on *ex situ* conservation work in certain circumstances.

Core costs: The Fund will not award a grant simply to cover the core running costs of an organisation or administrative overheads, and yet does recognise that sometimes support salaries, stipends, per diems and project related living costs are a vital part of *in situ* conservation work, as part of a conservation project.

Species: Generally the Fund would prefer to support projects which focus on a single species, but it also recognises that in some geographic and taxonomic circumstances it makes more sense to group a number of species.

Grant amount: The Fund will **not** provide a grant of more than \$25,000.

Grants for continuation: The Fund is happy to provide continuation support for a project which had previously been supported, which is now completed and for which the Fund has received all required reporting by the time of the respective submission deadline.

External review: In some cases the Advisory Board and/or the Fund's board of directors may ask for an application to be passed on for additional review, which may add to the response time.

Online: Only applications submitted through the Fund's online, web-based system will be considered. Supporting documents can be sent as email attachments, but the application itself must be online.

Deadline: 31 Mar 2026
